Saturday, November 15th, 2025

Buffalo Center, Iowa

Stabilizer • SimAngus

Cattlemen,

Welcome to the Meinders Stock Farms Fall Female Sale! We are excited about our offering of SimAngus and Stabilizer Bred Heifers and Cows! This will be largest group of bred females we have ever offered at 50 head! These females are in great shape and will be ready to go to work in your herd. We are focused on building cattle who have balanced EPDs with an emphasis on moderate cow size, feed efficiency, and marbling.

For the past twelve years, we have been marketing our bulls through Leachman Cattle and for the last four years, we have been selling our registered cattle here in North Central Iowa! With Leachman, we were introduced to their \$Profit, \$Ranch, and \$Feeder indexes which have helped us improve our herd at a rapid pace. \$Profit is the best index in the industry and all our cattle will sell with this index. We encourage you to read more about \$Profit, \$Ranch, and \$Feeder later in the catalog and we believe that it will greatly help you with your selections.

The females we are offering are bred to the some of the very best and highest \$Profit sires in the country! We mated exactly how we would have if we were keeping them to raise bulls and seedstock females. 2026 will be the first set of calves out of Mob Boss and Lagrange; two of the most popular bulls to sell in 2025! Take advantage and get some of their first progeny in your herd before everyone else!

These are exciting times in the cattle industry! The market is at al all-time high with some 600# calves bringing \$3000/head and the high value fat steers bring back up to \$4500/head! These females have the genetics to raise calves that will top the market, fat cattle that will convert and bring huge premiums on the grid, and to produce replacemnt heifers that will be great mothers and last a long time.

Come on out to look at the cattle any time between now and sale day!
